OBJECTIVE

I am a diligent hard-working individual. I work very well with others and I am determined to succeed with a drive for achievement. I am looking for a job in a junior position as I would like to gain more experience in the field.

WORK EXPERIENCE

Personal Touch JA (November 2021 - April 2022)
Technology Executive

Worked with other team members to help coordinate the technological needs of the company including the website, print-on-demand service, etc.

Worked on:

- Setting up a Shopify eCommerce site
- Bought and connected a custom domain to the site
- Designed the site in collaboration with the Marketing Department
- Managed connection of the print-on-demand service with the site

Supported by Junior Achievement Central Ontario.

EDUCATION

Agincourt Collegiate Institute (September 2018 - June 2022)
Ontario Secondary School Diploma High School

Activities and societies:

- Human Resources - Business Council
- Vice President - Muslim Student Association
- Homeform Representative - Student Activity Council
- Member - Hack Club
- Member - Chess Club

PROJECTS

connectwithmusa.com (May 2021 - February 2022)
<https://github.com/m-GDEV/connectwithmusa.com>

My personal website. Built with reactjs, react-router, and TailwindCSS.

ShortURL (January 2022 - February 2022)
<https://github.com/m-GDEV/ShortURL>

An open-source and privacy friendly URL shortener. Built with React.

AWARDS

1st Place - Her Code Camp Algorithmic Arbitrage Coding Challenge February 2022
Rotman School of Management

I Participated with 5 teammates to write an algorithm that interacted with a trading program simulation provided by Rotman. We were required to perform GET requests to an API provided to us to determine the financial viability of performing arbitrage in the simulation.

Taekwondo Black Belt September 2019
Ocean Club Taekwondo

I recieved my black belt after 5 years of hard work and determination. During the examination in which I passed a test to get my black belt, I also recieved Most Outstanding Student of the year. I also frequently instructed other students in a leadership role.

Participation - CPA / U of T Hackathon October 2021
Uuniversity of Toronto Scarborough

Completed a Hackathon hosted by the CPA and U of T. I practiced my problem solving, collaboration, and critical thinking skills. We were tasked with formulating a business plan, specifically the transportation infastructure, for a B2B organization. My teammates and I developped a strategy to use FBA (Fulfilled by Amazon) to deliver products to consumers at a marginal cost.
